

## *M o U on Satellite Monitoring*

### *Amendment N°1*

The Management Committee of the MoU on satellite monitoring within CEPT has decided to propose a change in the MoU and one of its annexes concerning the point in time when annual contributions are to be invoiced. This proposal will synchronise the invoices with the calendar year and therefore with the budget year of most parties concerned.

Paragraph	to be replaced by:
Main part, section 7.3	Immediately following into force of the MoU – i.e. 1 <sup>st</sup> of July 2003 – each Signatory will receive an invoice from the ERO for the annual contribution until the end of the calendar year in accordance with annexes 1 and 2 of the MoU; later annual contributions, using the same rules of calculation, will be invoiced on the 1 <sup>st</sup> of January each year thereafter. Those contributions must be paid within 60 days.
Main part, section 16.1	A Signatory may denounce this MoU by written notification to ERO. Such denunciation shall become effective by the end of the following calendar year.
Annex 4, section 3.11	Immediately following the entry into force of the MoU and then on the 1 <sup>st</sup> of January each year thereafter each Signatory shall receive an invoice from the ERO for the annual contribution until the end of the calendar year in accordance with annexes 1 and 2 of the MoU, which must be paid to the Account within 60 days.
Annex 4, section 6.1	The ERO may stop the execution of this Administrative Arrangement or may propose changes to it by written notification to the Management Committee. Such notification shall be received by the Management Committee at least 12 months before the date of the intended entry into force of this change and shall become effective on the 1 <sup>st</sup> of January after that date.
