

WGRA Webinar: Introduction to the New Legislative Framework (NLF)

REGISTER NOW

Join us for a Webinar on September 15

Presenter:

Mrs. Kati Heikkinen,
Deputy Head of Radio Inspection Unit at Finnish Communications Regulatory Authority (FICORA),
Chairperson of CEPT ECC WG Regulatory Affairs PT1 (RA1) "Enforcement"

The Webinar will be open to all interested parties, however prior registration is necessary to attend it.

The focus of the Webinar will be on the introduction to the New Legislative Framework (NLF), although some information on how the NLF might affect the R&TTE Directive will also be provided. It should be noted though that the revision of the R&TTE Directive is not finalised yet and therefore any views expressed during the Webinar on that issue should be taken as speculations rather than legal information.

The target audience for this WGRA Webinar include experts and specialists working in national administrations whose tasks are related to usage of radio frequencies and/or equipment compliance issues but who are not directly involved in the NLF related tasks. Industry may also have an interest in joining the Webinar as the issues on the agenda are those relating to placing equipment on the market.

It would be beneficial for the participants if they familiarize themselves in advance with EC Regulation 765/2008 on the accreditation and market surveillance.

Title: *WGRA Webinar: Introduction to the New Legislative Framework (NLF)*

Date: Wednesday, September 15, 2010
